PYRAMID HOLDS FALL ELECTIONS

Dr. Daniel L. Borden Elected to Pyramid Honor Society As An Honorary Member.

The Buff and Blue ribbons of Pyramid have again been flung to the breeze and are in evidence on the campus and in the corridors of the University. At a meeting last Sunday at the Sigma Chi house the annual fall elections were held, at which time four students, only from the senior class, were eligible for election under the constitution of Pyramid. The students honored by election at this time were: William Preston Haynes, C. C. 1921; Harold Thomas Kay, Law 1921; William Stayton, Law 1921; and Russell I. Whyte, C. C. 1921.

Under the constitution of Pyramid honorary members may be elected, as Prof. Dewitt C. Croissant and W. C. Van Vleck have been chosen in the recent past. At this time Dr. Daniel L. Borden, a member of the medical faculty, was chosen to be an honorary member. A list of the accomplishments of these men is given below.

At this same meeting it was decided to hold the initiation on the evening of Wednesday, December 15, at the Sigma Phi Epsilon house, 1918 Eighteenth Street. A banquet will be held in honor of the new initiates at the Raleigh Hotel two evenings later, on Friday, December 17, at which time the presence of a goodly number of Pyramid alumni now in town is promised.

The traditions of Pyramid extend back over much more than a decade, and its rolls include the names of many men prominent in the student activities of George Washington and famous wearers of the Buff and Blue on the gridiron of olden days. Election to Pyramid is one of the greatest honors that can come to an upper-classman, and the men just chosen are to be heartily congratulated by the entire student body.

Following is an enumeration of the accomplishments of the newly elected men:

William Preston Haynes, of Hopkinsville, Ky., is a member of the senior class of Columbia College and at the same time a freshman in the Medical School. Ever since his first registration he has taken an active interest in student affairs and has held the following offices: Chairman Junior class show, 1919; special editor Cherry Tree, 1919-20; Cherry Tree Staff, 1920-21; chairman Music Committee, Junior prom, 1919-20; president Glee Club, 1920-21. Haynes is a Sigma Chi.

Harold Thomas Kay, of Orem, Utah, made a name for himself at the University of Utah before coming eastward, having been a member of the varsity track and football teams for two years, an all-Rocky Mountain full-back for two years. He was a student representative on the Athletic Council and a member of two honor societies. Since coming here Kay has played an active part in the track season of 1919-20; is secretary of the newly organized Wandering Greek Society; is president of the senior class at the Law School, and was a tower of strength in the backfield of our football team in the season just past. Kay is a Beta Theta Pi and a Phi Delta Phi.

Russell I. Whyte, Washington, D. C., Whyte has been with us for quite a long time, having started out in the Engineering School and later changing over to Columbia College. During his college career he has been treasurer of the freshman class in 1916-17; president of the sophomore class, 1917-18; treasurer of the senior class, 1920-21; Chemical Society, 1917-18; George Washington Players, 1919-20; treasurer, 1920-21; Cherry Tree Staff, 1917-18, 1919-20; Hatchet Staff, 1918-19, 1919-20, 1920-21; manager of football, 1920-21; Student Council, 1917-18. Whyte is a Phi Sigma Kappa.

Dr. Daniel L. Borden, of Washington, D. C., has received the following degrees from George Washington University: Doctor of medicine, 1912; bachelor of science in medicine, 1916; and master of arts, 1917. He is a member of Delta Tau Delta and Phi Chi, professional medical fraternity. He is associate professor of surgery at the George Washington Medical School and associate attending surgeon at the George Washington Hospital. For several years he has served as University physician, under the Student Activities Tax plan. He is a member of the G. W. Medical Society and a faculty member of the Board of Managers of Student activities at George Washington. In 1916 he was closely associated with the G. W. football team, and during the past season he has attended most of the games and has been an ardent backer. If the consent of the Board of

SENIORS PLAN RUMMAGE SALE FOR DEC. 17-18

Dates Set for Event Which Is Hoped Will Raise Funds for Senior Class Projects.

The senior class held a rousing meeting and mixer at the Theta Delta Chi House last Friday night, December 3, and completed plans for the rummage sale, to be held Friday and Saturday, December 17 and 18. The enthusiasm of all those present indicates success for this, the first event of the senior program for the Centennial year.

The meeting was called to order by President Shea, and discussion of the sale was immediately taken up. The rummage sale, though under the auspices of the senior class, is a University affair. The seniors are calling on every G. W. student to contribute some saleable article for the sale. No article is barred. Wearing apparel, furniture, decorations, cutlery, dishes are but a few of the articles asked for by the seniors.

Trucks will collect all contributions and take them to the place of the sale. The sale will be held at a store on Florida avenue or one on Pennsylvania avenue. The collection of articles is in the hands of James Nolan, who can be reached at the Delta Tau Delta House.

The class hopes to clear \$500 above expenses. This money will be expended for blankets for the football team and for a memorial for the University. The blankets will cost \$200 and the memorial \$300.

Wide publicity through the local papers is guaranteed for the sale. President Shea said that the spirit shown so far was indicative of harmony and concerted effort and with the co-operation of the entire student body success was bound to come.

SIX "A" LAW STUDENTS MADE QUIZZ MASTERS

The six "A" students of last year's Second Year Law Class have been appointed by Dean Ferson as quizz masters. They are: Ismer Barnich, C. M. Crews, B. C. Harris, W. P. McCoy, J. D. Watkins, and Miss E. A. Wegener.

They will assist in grading quizz papers and like work. The large classes of this year throw such a very heavy burden on the professors that it would be practically impossible for them to grade quizz papers.

Dean Ferson recently gave a quizz in Contracts, and tests in other First Year subjects will likely be given soon. Such tests serve to give students who have never stood examinations in law subjects an idea of the kind of questions to expect on the regular examinations in February. Incidentally the professors are very likely to get a very good idea from the answers as to how much law the Freshmen are absorbing.

COLUMBIAN AND ENGINEERING FRESHMEN MEET

Message From Sophs Arrouses Much Discussion—Decisions Withheld Pending Class Scrap.

The Freshmen of the Columbian and Engineering Colleges held a joint meeting at 2017 G street Northwest, Wednesday night, December 1. About 50 freshmen turned out and showed the same spirit which characterized their first meeting. The tug-of-war, a freshman mixer, and submission to the sophomores' "three commandments" were the subjects of much discussion. The class decided to have its mixer next Monday, December 13, in the chapel of Lisner Hall.

Earle Manson, president of the Columbian Frosh, called the meeting to order and read a letter which he had received from Joseph Garnett, president of the Columbian Sophs. This letter called on all freshmen to submit to certain restrictions and regulations drawn up by the sophs. The regulation are: "that all freshmen shall wear green; (the man wearing the customary green cap); that the freshmen shall enter the school grounds through one gate only and enter Lisner Hall through one door only; and that all freshmen shall attend the cheer practices and similar meetings."

Trustees to the return of football can be attributed to any one man, Dr. Borden is that man. He is personally responsible for the revival of football at George Washington.

HOLD ELECTION OF SENIOR MARSHALLS.

The Student Council has nominated six candidates for senior marshals for the year 1920-1921. The nominations were held at the Student Council meeting of December 8. All seniors are eligible to vote in the election. From the six nominees, three are to be elected.

The committee on elections of the Student Council has made arrangements to hold the balloting on Monday, Tuesday and Wednesday, December 13, 14 and 15. Ballot boxes and forms will be on hand in the various departments of the University on the three above-mentioned dates. Only bona fide seniors are eligible to vote, and all ballots must be signed or will not be considered by the Committee on Elections.

The seniors nominated are: Russell I. Whyte, Harry Strang, Leslie B. Young, Harold Kay, Edward Hanson, and Harry W. Newman.

Only seniors to vote; all votes must be signed; vote for three only.

ENGINEERING SOCIETY HOLDS THIRD MEETING

Mr. E. B. Smith, of Bureau of Public Roads, Gives Talk During Meeting.

After enjoying a fine supper served by the Sphinx Honor Society, the Engineering Society held its third regular meeting in the chapel Tuesday, December 7.

The speaker of the evening was Mr. E. B. Smith, of the Bureau of Public Roads. He spoke on "The Impact of Truck Wheels on Roads." The lecture was profusely illustrated and very interesting.

The society went on record as favoring a plan to hold a banquet with the Arts and Science Department during Centennial Week. The proposed date is February 19.

The evening was concluded by the presentation of a three-reel movie on "The Spirit of Progress," which showed up-to-date methods for the production of machine screws.

COUNCIL APPROVES AWARD OF LETTERS

At a meeting of the Student Council held Wednesday night, December 8, the following men were voted upon and approved as having complied with rules and regulations for receiving G. W. in football: J. R. Daily, Harry Hawley, James Hume, John Loehler, Paul Loehler, Russell McAlister, Knut Nilsson, Edward Sandys, G. B. Springston, Gilbert Walter, Clifton Whyte, R. I. Whyte.

FRESHMEN TO HOLD BIG CLASS MIXER

The Freshman Social Committee announce that on Monday evening, December 13 the class of 1921 will hold a mixer. This mixer will be in the form of a dance and will be held in the Chapel. The "Frosh" plan to make this mixer a social event worth remembering an occasion and an opportunity to get acquainted with classmates and to instill in the class as a whole a spirit that will make the class stand out above any other class that has gone through this University. Every member is asked not only to be there personally, but to appoint himself a committee of one to see that all his classmates who are known to him lend their aid, even if only for a few minutes.

HOLD BANQUET FOR G.W. RESEARCH STAFF

Speakers of Evening Emphasize Value of Explosive and Dyestuff Research to University.

The men of the Dye and Explosive Laboratory of George Washington held a banquet at the Monmouth Hotel last Tuesday night, November 30, and inaugurated what Judge Moore, Assistant Director of the Laboratory, called a new era for George Washington University. The guests of honor were all men who have been or are now actively affiliated with the University. Dr. Charles E. Monroe, one of the greatest living authorities on explosives, formerly Dean of Chemistry at G. W. U., and now consulting chemist to the Ordnance Department, the Bureau of Mines, and the George Washington Dye and Explosive Laboratory was present and spoke. Other speakers of the evening were Major J. Herbert Hunter, chief of the Explosive Section of the Ordnance Department; Dr. McNeil, Dean of Chemistry at George Washington; Mr. Fred Olsen, of the Ordnance Department; and Mr. George Phillips, Director of the Laboratory. Judge F. D. Moore was an eloquent toastmaster.

The Dye and Explosive Laboratory is located in the old Pharmacy Building, 801 I street northwest. Since the opening of the present term the work of the Laboratory has been research and experiments with explosives, with the purpose of solving some of the United States Government's problems. The Ordnance Department has contracted with the University for this work and liberal financial support has been extended by the recent appropriations of Congress.

The speakers of the evening emphasized the value of this work to the individual, the University, and the nation. This is probably the biggest chance the University has ever had to serve the country. The men are now working on T. N. T., one of the most powerful explosives known. Although this explosive was used during the war, it is not entirely satisfactory. The Government wants to make it cheaper and more dependable.

Besides George Washington the Government has similar contracts with Cornell, Yale, and Boston Tech. Major Hunter said that he had noticed the most enthusiasm at Cornell and the best results at Boston Tech. He also commended the work at George Washington. He said that the Government looks to the colleges for help and will continue to finance the work as long as results are justifiable.

Dr. McNeil pledged his support to the project and declared that through such preparation, war would be kept away and our prestige in the commercial world advanced. Mr. Olsen invited the men to his office in their research and also pointed out the possibility of patenting some of the discoveries of the men. Judge Moore called on the men to be earnest and regular in their work. Mr. Tibbets, president of the Chemical Society, pledged the support of the society and promised to give the work of the Laboratory attention at the Chemical Society meetings.

OPEN HOURS OF LAW LIBRARY ARE CHANGED

Beginning December 1 the Law Library will be open each week-day from 9 a. m. to 11 p. m., and Sundays from 2 to 6 p. m. Heretofore the Library has closed at 10 each evening and has not been open on Sundays. The great increase in the number of students taking Moot Court work and the corresponding increase in the number who necessarily have to use the Library for reference work justifies the new hours.

Since the new building has afforded more room for the Library and better facilities for study many more students are making use of it for that purpose.

Miss Glenn Eno, Miss Mary M. Connelly, and Miss Alice M. Dodd have been appointed assistant librarians.

PYRAMID MEETS.

The Pyramid Honor Society met last Sunday, December 5, at the Sigma Chi house and elected officers for the coming year. All but two of the members were present. John Townsend was elected president; Edward Hanson, vice president; and W. Cameron Burton, secretary-treasurer. A short business meeting was held.

START WORK ON BASKETBALL TEAM

Will Hold First Meeting Monday Night; Expect Over Fifty Men to Turn Out.

Monday night at 7.30 o'clock in Lisner Hall chapel a call for basketball candidates, varsity and freshmen, is expected to bring out more than 50 men for the floor game.

Capt. Charles Boteler, Manager Arthur Nall and Bryan Morse will be on hand to talk over the prospects, list up the candidates and give out the details of the approaching campaign.

George Washington expects to do big things this winter in the coming campaign. In the first place, arrangements are under way to play all home games in the Central Coliseum, Ninth and Pennsylvania Avenue. Practice sessions are to be held there at night on certain nights each week.

It is expected that the track team will train there this winter in addition to the varsity and freshman basketball teams. The schedule is not quite completed, but has been given out as far as it is possible.

The Central Coliseum afforded ample space for a basketball court 50 feet by 84 feet, which is comparable to the best floors in the country. Baskets are to be suspended from the iron supports. Lighting facilities are of the best.

Practice will be started before the Christmas holidays as soon as contracts are signed for the use of the hall and arrangements are made to install showers and locker facilities. It is expected that practice for freshmen will be held on some afternoons until the games start up.

The basketball schedule is not a long one, but contains some of the strongest teams in this section. January 8 William and Mary College, of Williamsburg, Va., comes here; January 12 George Washington plays Catholic University at Brookland. On January 14 and 15 Delaware College, of Newark, Del., and Penn Military College, of Chester, Pa., are to be played away from home.

On January 18 the big game with Georgetown is to be played in Ryan gymnasium. The first game is with Gallaudet College and will be played in the Coliseum on January 22. On February 2 Catholic University is played in the Coliseum, while on February 5 Roanoke College, of Roanoke, Va., comes here for a game.

A return game with Gallaudet is to be played at Kendall Green on the date of February 11. Virginia Polytechnic Institute comes here for a game on February 15, while Georgetown is played at home on February 19.

It is not unlikely that Manager Nall will be able to include West Virginia Wesleyan, the University of Virginia, Culver Military Academy and one or two others in the list of games.

The freshman schedule, which is being arranged by Manager Dick Gehring, will be announced next week. The Frosh will meet and elect a captain after the first week of practice and will have their program mapped out for them as soon as varsity arrangements are completed.

While contracts have not been signed for the use of the Coliseum, it is expected that no trouble will be encountered in making all arrangements for the use of the floor. One or two dates may be shifted on the schedule.

Of available material from last year, Capt. Charles Boteler, John Daily, John Ladd, Willard Brachlow and Eugene Underwood are in college. Many candidates of known ability are expected for the team at Monday night's meeting.

CO-ED WRITING COMEDY.

That George Washington intends to produce a musical comedy this year is shown by the work of Miss Jean Jussen, who is working on a musical comedy, which is to be the best thing G. W. U. has turned out for a number of years. Miss Jussen is writing both words and music and expects to complete the play in about two weeks. Try-outs will follow the completion of the comedy.

W. U. C. MEETS.

The Women's University Club met Thursday night, December 2 and discussed their plans for the year. The club decided to give \$20 toward the fund to purchase sweaters and silver footballs for the members of the varsity team. Plans to bring the George Washington Service Flag up to date were made. The flag is the gift of the club to the University and the members are interested in having the flag as complete as possible.

School Spirit

We have heard a lot about G. W. U. school spirit. Some state positively that there is such a thing—others doubt its existence. We wish to announce definitely that "school spirit" has arrived at G. W. U. Having arrived, we are sure it will like our institution and remain with us forever. We are rather inclined to believe that it has been among us always, but hidden from the public gaze, and cherished by students and alumni as a great personal secret. Students, alumni and faculty are all beginning to manifest a new interest in University activities. What is the cause? Is it the Football Team? Is it Activity Director Morse? Whatever the cause, real school spirit is being exhibited more and more each day. It is contagious. The students, at least some 1,500 tax signers, caught it first. Now the alumni are showing symptoms. And the doctors are the first among the alumni to catch it. It spread so rapidly at a recent meeting of the Medical School Alumni Association that seventeen doctors subscribed to the alumni activity privilege plan, and besides appropriated \$100 from the treasury of the association. That is real school spirit, and a real way of showing it. School spirit is of no use when kept a secret. Show it! Follow on the footsteps of Dr. E. T. M. Franklin, who gave \$20 in addition to subscribing to the alumni privilege.

With the alumni giving their moral and financial support, G. W. U. spirit is bound to revive, and the natural consequence, success in every branch of athletics, is assured. Two schools much smaller than G. W. U.—"Penn State" and "Georgia Tech"—have gained nation-wide prominence simply by developing a wonderful school spirit. Can G. W. U. do it? Certainly; the work is already started. Let each student, each alumnus, each member of the faculty stop doubting the possibilities of our great University and begin from this date to BOOST.

Radio for the College Man LOOMIS RADIO SCHOOL

Every college man should realize that the facts established by the early experimenters in "wireless" rank among the half dozen most important discoveries made by the human race.

There are several reasons why every college man should have a knowledge of this newest and greatest of sciences. It will, without a doubt, gradually remold many of our present customs. The principles upon which it is based will be applied to many different uses as yet unguessed. Already we have, besides the telegraph, the practical radio telephone, the radio compass, which is invaluable to ships at sea and to aeroplanes and the radio cable method of guiding ships into harbors.

As a matter of up-to-date education in scientific matters in general, a course in the Loomis Radio School will prove a worth while addition to your college course.

As a means of pleasant and fascinating use of your spare time, nothing can surpass our course in radio.

As a means of entertainment for yourself and your friends, you will find the erection of a radio station in your own home or rooms to be unequaled.

As an opportunity to secure world-wide travel without expense to yourself, it offers more than any other profession in the world. Many college men study radio evenings during the winter and travel as radio operators during the summer, thereby benefiting their health, filling their pocketbooks, and seeing the world at the same time.

Start now, and let us qualify you for a cruise next summer.

Catalogue on request. Tuition charges moderate.

What Is Air?

BEFORE 1894 every chemist thought he knew what air is. "A mechanical mixture of moisture, nitrogen and oxygen, with traces of hydrogen and carbon dioxide," he would explain. There was so much oxygen and nitrogen in a given sample that he simply determined the amount of oxygen present and assumed the rest to be nitrogen.

One great English chemist, Lord Rayleigh, found that the nitrogen obtained from the air was never so pure as that obtained from some compound like ammonia. What was the "impurity"? In co-operation with another prominent chemist, Sir William Ramsay, it was discovered in an entirely new gas—"argon." Later came the discovery of other rare gases in the atmosphere. The air we breathe contains about a dozen gases and gaseous compounds.

This study of the air is an example of research in pure science. Rayleigh and Ramsay had no practical end in view—merely the discovery of new facts.

A few years ago the Research Laboratories of the General Electric Company began to study the destruction of filaments in exhausted lamps in order to ascertain how this happened. It was a purely scientific undertaking. It was found that the filament evaporated—boiled away, like so much water.

Pressure will check boiling or evaporation. If the pressure within a boiler is very high, it will take more heat than ordinarily to boil the water. Would a gas under pressure prevent filaments from boiling away? If so, what gas? It must be a gas that will not combine chemically with the filament. The filament would burn in oxygen; hydrogen would conduct the heat away too rapidly. Nitrogen is a useful gas in this case. It does form a few compounds, however. Better still is argon. It forms no compounds at all.

Thus the modern, efficient, gas-filled lamp appeared, and so argon, which seemed the most useless gas in the world, found a practical application.

Discover new facts, and their practical application will take care of itself.

And the discovery of new facts is the primary purpose of the Research Laboratories of the General Electric Company.

Sometimes years must elapse before the practical application of a discovery becomes apparent, as in the case of argon; sometimes a practical application follows from the mere answering of a "theoretical" question, as in the case of a gas-filled lamp. But no substantial progress can be made unless research is conducted for the purpose of discovering new facts.

COUNCIL FAVORS FORMATION OF RIFLE TEAM

Student Council Recommends the Appropriation of Sufficient Funds to Establish Team.

George Washington University is going to have a rifle club which will take part in the National Intercollegiate Rifle Association Matches. At a meeting of the Student Council held Wednesday night, December 8, it was agreed that the amount of money needed to finance the club be taken from the Student Activities Fund. The Board of Managers of the University will have full control of the appropriation of this money and of the regulation of the club itself.

W. R. Stokes, of the Department of Law, '22, was appointed by the Council manager of the team. Mr. Stokes graduated from Central High School in 1917 and was a member of the rifle team of that school during the four years which he attended, holding the position of captain the last two years. He shot on teams representing the District of Columbia in national matches in 1916, 1919 and 1920. He was a member of the United States International Small-Bore Team in 1919 and 1920. The rifle team will be under the direct supervision of Mr. Bryan Morse and Mr. Stokes will shoot in all the matches.

The program for the rifle club will begin after the Christmas holidays, about January 1. The D. C. Armory range at Fifth and L Streets Northwest has been engaged by Mr. Stokes as a practice field for the team and as the ground for the home range. The equipment will be supplied by the War Department, thereby eliminating the principal expense of the club.

The teams which the G. W. U. Rifle Club will meet with are the University of Pennsylvania, Syracuse University, Princeton, University of Michigan, Chicago, Norwich, and Cornell. Yale and Harvard are also included as members of the Intercollegiate Rifle Association but are on the same footing as G. W. U., being made members this year. The teams will fire on their home ranges once each week beginning after January 1, for ten weeks. Each match will be supervised by a judge appointed by the National Rifle Association of America.

The team will consist of ten men. G. W. is extremely fortunate in having in its student body a large number of men who are graduates from D. C. high schools and other schools where shooting is given a prominent part in the social curriculum. It is estimated that there are at least seven men attending the University who are known to be expert shots. These men are H. C. Espey, T. M. Blanton, R. C. Stokes, J. L. Wren, A. G. McNish, J. M. Barry, W. R. Stokes. However, Mr. Morse solicits the services of more men and all will be put through try-outs until the desired number of efficient shots are found.

VARSITY BASKETBALL SQUAD.

Miss Elva Whitcomb, coach, has announced that the following girls have been chosen for the varsity basketball squad:

M. Brewer, F. DeGrange, A. Duffies, M. Dunham, H. Egan, E. Eckert, C. Gayle, L. Proctor, M. Patterson, G. Pickering, M. Webster, M. Saunders, B. Woodford.

Two other squads, the Buff and the Blue, have been formed. Also a beginners' squad, called G. W.'s Own, has been organized and is calling for recruits—girls who want to learn to "play the game."

The plan is that the team chosen from the Varsity squad will play only those games scheduled with schools of collegiate rank. All games arranged with secondary schools will be played by the Buff and the Blue.

Each squad is to have its own captain, mascot, and colors. This arrangement will add zest to the practice games to be played each Saturday night between the Buff and the Blue.

The attendance record shows that 50 girls are attending practices regularly.

DRAMATIC CLUB MEETING.

The Players met Wednesday evening, December 8, in the chapel. After some discussion it was settled that the vaudeville show will take place shortly after the Christmas holidays—the exact date to be announced later.

Try-outs were held and the committee succeeded in picking the cast for the one-act play which is to be part of the vaudeville show.

FIRST YEAR LAW MEETING.

The First Year Law Class met Tuesday, December 7, to plan for a class party to be given December 18. The social and executive committees gave reports, then the finance committee presented a new and novel method of securing money for class activities. The plan is that tickets, very much like the Student Activities Tax cards, admitting the holder to class parties, and dances will be sold. This method will do away with the necessity of class dues or separate tax for each party.

G. W. GIRLS' BASKETBALL TEAM WINS FIRST GAME

On Monday night, November 22, the G. W. U. co-eds met their first opponents and came away with the long end of the score. The game was an exceptionally well-played one, but no particular stars were observed for either side. The final score was 12 to 10 in favor of George Washington.

Line-up and summary:
Georgetown—A. Cumberland, F. Nichols, F. Kreamer, C.; Jackson, S. C.; Gladmon, G.; H. Cumberland, G. George Washington—M. Brewer, F.; G. Pickering, F.; E. Eckart, C.; Patterson, S. C.; Proctor, G.; Belt, G.

Substitutions—Georgetown: I. Bell for A. Cumberland; Brown for Nichols; Faber for Kreamer; Chamberlain for Gladmon; H. Bell for H. Cumberland. George Washington: Hadden for Brewer; Webster for Pickering; Brewer for Proctor, Proctor for Belt.

Score: Georgetown, 8—2, total, 10. George Washington, 8—4, total 12.

Goals from floor: A. Cumberland, 2; L. Nichols, 2; Brown, 1; Brewer, 2; Pickering, 2.

BOWLING NEWS

Sigma Nu defeated Kappa Sigma by a score of two games to one in a closely contested match held on November 22.

Sigma Phi Epsilon outbowled Delta Tau Delta by the same amount on the same evening. Delta Tau Delta won the first game by a score of 410 to 407. No marks were made by Sigma Phi Epsilon during the first game, an unusual occurrence in the fraternity matches. A reversal occurred in the second game; Sigma Phi Epsilon won with a score of over 500 to a score of 480 by the Deltas. Sigma Phi Epsilon won the third game.

Theta Delta Chi won from Sigma Chi on November 29. Garnett, of Sigma Chi, made an average of 102 for the entire match. C. H. Hixson made the highest scores for the Theta Deltas.

Kappa Alpha overwhelmed Phi Sigma Kappa by bowling above 500 for all three games that were played in the match of November 29. A score of 528 was made in the second game and is the highest score made this season. John Dice, of Kappa Alpha, made the highest individual score, bowling an average of 111 for the three games.

With the bowling schedule half completed, the race for the Interfraternity Bowling League Trophy has narrowed down to a race between three fraternities, Sigma Nu, Kappa Sigma and Kappa Alpha.

Sigma Nu got away with a flying start and appears to be holding her own, not through individual scores but through excellent teamwork. Kappa Sigma, owing to her two victories over Kappa Alpha, is well up in the race and may cop the cup. Judging from her last two matches, Kappa Alpha should be near the top, as her recent scores have been much higher than any others seen in the tournament. Sigma Nu will play Kappa Alpha on December 13, and the result will be of great importance in determining the final result.

Phi Sigma Kappa and Sigma Phi Epsilon seem to have lost out owing to recent defeats. Sigma Alpha Epsilon and Theta Delta Chi made too late a start to have serious aspirations.

Sigma Chi's team is too weak this year to afford serious competition, while Delta Tau Delta has lost most of her games through default.

League Standing December 1, 1920.

	Won.	Lost.	Pct.
Sigma Nu.....	8	1	.888
Kappa Sigma.....	9	3	.750
Kappa Alpha.....	6	3	.666

SIGMA CHI.

The annual banquet of the Sigma Chi Alumni Association was given at the Arlington Hotel on November 15. Many of the alumni from other chapters were present as well as those from Epsilon. Brother Mapes, solicitor of Internal Revenue, was toastmaster. Brother Samuel H. Walker, one of the founders of Epsilon Chapter, was present and gave a short talk.

Brother Brooks Hays of the University of Arkansas, Brother Larry Huch of Tulane, Brother Wright of Colorado College, Brother Thomas Mather of Iowa, and Brother Alan G. Thurman, University of Utah, have become affiliated with Epsilon Chapter.

A Hiking Club has been formed consisting of Neilson, Hanson, Davis, Dougherty, Haynes, Nall, Mac Manamy, and Manson and weekly hikes through Rock Creek Park and the surrounding country have been planned for the winter.

KAPPA SIGMA.

Edwin Miller has returned to Washington and is at present located at the house. Ed has registered at the Law School.

Alpha Eta will give a Founders' Day Smoker on the evening of Saturday, December 11. All of the Kappa Sigs in the city are expected to be present, and a real old-fashioned "good" time is expected.

With the coming of the basketball season, Alpha Eta feels confident it will be ably represented with candidates for the varsity.

Lester Johnson has just returned from a trip to New York, where he attended the Army-Navy game and visited some friends.

Herbert Martin, a national officer of Kappa Sigma, was a visitor at the house last week.

KAPPA ALPHA.

A visit from Brother Jordon, late of Georgia Tech, and now a graduate student at New Haven, was enjoyed last week.

Another Alpha Nu man has joined the Benedicts in the person of Dr. John Boston.

To offset this, another name has been added to the Bachelors Club of K. A.—John E. Foote. This brings the membership up to a total of nine.

A very enjoyable Thanksgiving dance was held at the Chapter House on Thanksgiving night.

Brother George Rice went down to visit his beloved V. M. I. over the holidays, while at the same time Brother Skinner paid "court" to the fair Virginia (State).

DELTA TAU DELTA.

Jimmie Nolan, late of Lehigh and Catholic University, is a member of the senior class of Columbian College.

Rhesa M. Norris, Law '18, who has been connected with the New York office of the New England Coke & Coal Co., is now general manager of the New York branch of the concern.

Carl S. Fairbanks, Law '18, of the Shaw-Walker Co. has recently returned from a trip through France and Spain on business for the company.

Bill Solan, formerly of Gamma Eta, is a member of the University of Nebraska track squad, with prospects for making the regular team.

PHI CHI (MEDICAL).

Phi chapter of Phi Chi wishes to announce the following initiates and pledges. Initiated as associates: Dr. C. W. Culver and Dr. A. L. Staveland. Initiated as active members: B. J. Glenn, W. J. Massey, H. A. Searl, Noah Rouse, C. H. Harnsberger, H. T. Parkins and R. M. Hewitt.

The initiation was held at the New Ebbitt Hotel and was followed by a very enjoyable smoker. A number of alumni were present.

Dr. Shepherd I. Fuanz has returned from Europe where he spent the summer.

Dr. Russell K. Holingsworth is practicing medicine in Anacostia.

Dr. T. T. Hirst Hayes is located as interne in G. W. U. Hospital.

Dr. Henry W. Leech has been at Saranac Lake, New York, recovering from a recent illness.

Dr. Elliott M. Campbell has located in the northwest section of the city, 3103 Mt. Pleasant Street.

Dr. Carl Dairs, professor of anatomy at George Washington Medical School last year, is now professor of anatomy at the University of Maryland.

Dr. John High Lyons is still at the Mayo Clinic, Rochester, Minn.

SIGMA ALPHA EPSILON.

Sigma Alpha Epsilon gave an informal dance at their chapter house Friday, December 3. A large number were present and everyone had a good time. Mrs. Earnest and Mrs. Lane chaperoned.

George W. Young is back in town and is now living at the chapter house.

SIGMA NU.

J. F. Rollins, '22, has withdrawn from the University and will continue his course at the University of Chicago.

Mr. and Mrs. J. R. Boyd and Mr. and Mrs. Victor Kebler were guests of Delta Pi chapter at dinner on Sunday.

Delta Pi chapter of the Sigma Nu fraternity will hold their annual Xmas dance on December 29 at the Hadleigh.

ALPHA KAPPA KAPA.

Alpha Zeta chapter has taken rooms at 1014 Fifteenth street. Last Saturday night the chapter entertained the Grand Historian, Dr. Irving, who is here for the Verier Congress.

The following men were initiated Nov. 18, 1920: John Paul Russel, John Custice Batchelor, Wm. Thomas McCloskey, Wm. George Harding.

Mrs. Fox was bragging one day about the large number of her cubs.

"How many cubs do you bring into the world at one time?" she asked the LIONESS.

"Only ONE," replied the Lioness—"but it's a LION."

**MURADS COST 20 CENTS for a BOX
of 10—BUT THEY'RE MURADS!**

MURADS would be lower priced if we left out all or part of the 100% Turkish tobaccos of the purest and best varieties grown—or if we substituted inferior grades of Turkish tobacco.

But they wouldn't be MURADS—they'd only be Foxes!

"Judge for yourself—!"

Special attention is called
to Murad 20s in Tin Boxes
